### Applications:

A mechanical wrist watch is a hand-wound wristwatch that is manually powered through winding a spring. This manually-powered watch has a case diameter of 40mm and is carefully crafted with silver markers and a white dial. It has two years of warranty and is a reliable timekeeper that can accurately display time and date with its two useful functions. The manual winding of the watch gives it a unique and stylish look that is perfect for any occasion. Whether you are attending a formal event or going out for a casual evening, the mechanical wrist watch will add a touch of elegance and sophistication while keeping you on time.

### Customization:

Customize Your Own Mechanical Wrist Watch

Create a unique watch that is truly yours. Choose from a variety of features to customize your own winding wristwatch, such as the bezel, crystal, case thickness, water resistance, and movement.

**Bezel:** Fixed  
**Crystal:** Sapphire  
**Case Thickness:** 10mm  
**Water Resistance:** 50m  
**Movement:** Automatic

Bring your own unique style to life with your own hand-cranked watch. Create your own winding wristwatch and experience the joy of owning a truly personalized watch.
